# DZ-Manager ™

DZ-Manager[TM] is a manifest and drop zone management software with an intuitive, sexy looking and easy to handle modern user interface.

Intuitive because its **operation** is foolproof and self-explanatory once you have learned the two basic techniques:

1. Drag&Drop: by just placing an object[1] you initiate actions: e.g. to manifest a jumper just place him on a lift using the mouse. To demanifest him place him on the recycle bin.
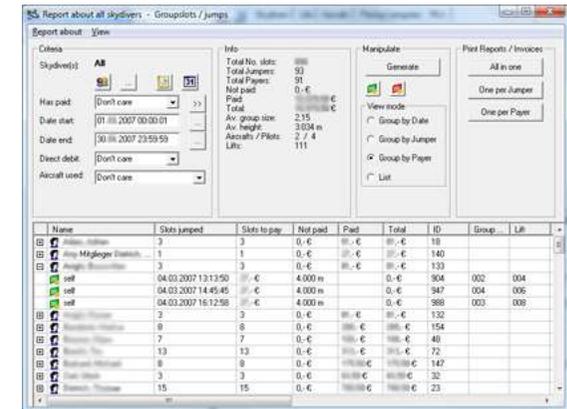

---

[1] Jumper, groups, lifts, etc.

2. Beside that every object can be clicked with the right mouse-button to open a customized context menu:

To accelerate the registration of skydivers you can use so called **DzM-Cards**: Chip- oder Barcode-cards, that are cheap to produce and can be used for fast manifesting:

For analyses purpose and to create invoices you can create extensive **Reports**.

Such reports, as well as invoices, jump certificates, load lists, waivers or skydivers bio data, can be **printed**. The Layout of these print outs can be customized completely, e.g. to create jump certificates for tandem passengers.
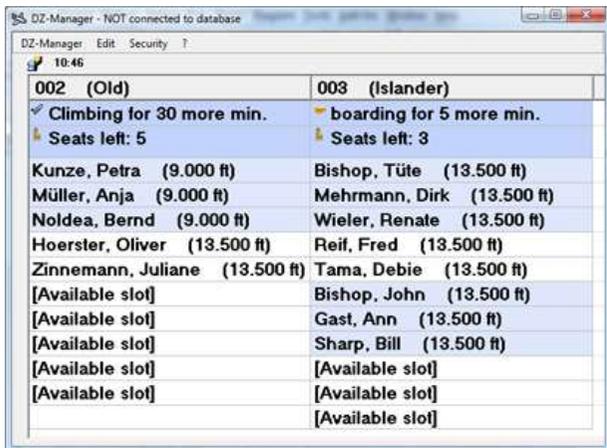

To display **actual load lists in real time** DZ-Manager has a Monitor-Modus included free of charge, which announces the status and boarding time to the skydivers via big flat screens or beamers.

| 002 (Old)	003 (Islander)	
Climbing for 30 more min.	boarding for 5 more min.	
Seats left: 5	Seats left: 3	
Kunze, Petra (9.000 ft)	Bishop, Tüte (13.500 ft)	
Müller, Anja (9.000 ft)	Mehrmann, Dirk (13.500 ft)	
Noldea, Bernd (9.000 ft)	Wieler, Renate (13.500 ft)	
Hoerster, Oliver (13.500 ft)	Reif, Fred (13.500 ft)	
Zinnemann, Juliane (13.500 ft)	Tama, Debie (13.500 ft)	
[Available slot]	Bishop, John (13.500 ft)	
[Available slot]	Gast, Ann (13.500 ft)	
[Available slot]	Sharp, Bill (13.500 ft)	
[Available slot]	[Available slot]

	[Available slot]	

All data is saved in an Access or MySql-**database**. This way the data can be accessed even without using DZ-Manager[TM].

DZ-Manager[TM] is available in a free of charge, slightly restricted **Personal-Version** und a full featured, network-compatible **Professional-Version**.

Free on- and offline **demonstration** available on request.

References:

- DZ-Manager[TM] is used on more than 200 drop zones worldwide.
- In 2010 jumps worth far more than 1 Mio. EUR where manifested using DZ-Manager[TM]
- Major events with over 200 jumpers at once are organized with the help of DZ-Manager[TM] for years to the satisfaction of drop zone owners as well as jumpers.
